Claims 7, 9, 11, 16 and 18 are withdrawn from further consideration pursuant to 37 CFR 1.142(b) as being drawn to a nonelected species, there being no allowable generic or linking claim. Election was made **without** traverse in the reply filed on 10/26/07.

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1-6, 8, 10, 12-15 and 17 are rejected under 35 U.S.C. 102(b) as being anticipated by Nagai ('590).

In particular, the embodiment shown in Figure 1 teaches all of the limitations of these claims including the cut valve (30), the float valve (7), the diaphragm valve (4) and a path to the atmosphere via the canister through valve (40a).

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.
